Masses of activities based on the premise that movement, particularly if it is specific and intentional, enhances learning. Move to Learn is a movement programme for children aged five to eight years, delivered in sessions, working one-to-one with an adult or as a small group. Moving promotes learning and other outcomes will follow: Emotional - encouraging happy, secure, confident, motivated and positive emotional states in the limbic system of the brain to support a sense of well-being; Cognitive - using movement to create and strengthen neural pathways, to integrate brain activity and develop whole brain learning; Motor - enabling children to develop their gross and fine motor skills, and to understand being active or calm and to know the difference; Social - using activities to have fun and play together, and to interact and build good relationships; and, Language - to encourage good listening skills and attending to instructions, and to learn to use self-talk to mediate learning. The activities are arranged in ten sections to address different types of movement: Stamina; Large motor actions; Mobility; Balance; Body awareness; Spatial awareness; Dexterity; Fine motor skills; Rhythm and sequence; and, Relaxation.
