Brand New Book ***** Print on Demand *****.Excerpt from Harper Outdoor Book for Boys How to do it, might very well be the title of this new handy-book for American boys. It is first and last a practical guide, based upon the experience of those who have done what they describe. Results are wanted, not theories in a book of this kind, and careful tests have been applied to secure working results and the certainty that everything will come out all right. Another point, which has had the most careful attention of a board of editors, is that of selection. It would be easy to include a quantity of sports and games, and also plans for elaborate contrivances neither particularly amusing nor necessary when done. But the object of this book is to show boys how to do accurately things which are quite within their powers, and things also which will be a satisfaction when they are done. The plan followed is to develop a boys ingenuity and mechanical ability along lines which will reward him. In short, the book is intended to help a boy to think and act for himself and to have fun in doing it. The plan of arrangement which is followed is the natural one - to begin at home. The back yard lies immediately at hand. Let us see what can be done there. The aquarium, pet shelters, windmills, and many other contrivances are identified with the home.
