The forests were cleared; the land was farmed intensively through the mid-19th century and then was allowed to reforest naturally as agriculture shifted west. Today, in many ways the region is more natural than at any time since the American Revolution. This fascinating natural history is useful background for anyone interested in New England's ecology, wildlife, or landscape. In "New England Forests Through Time" these historical and environmental lessons are told through the world-renowned dioramas in Harvard's Fisher Museum.
