The Certified Software Development Professional (CSDP) and is awarded to software engineers who have 5 to 7 years of software development experience and pass the CSDP exam. This certification was instituted in 2001 and establishes that the certificate holder is a competent software engineer in most areas of software engineering such as: Software project manager Software developer Software configuration manager Software quality-assurance expert Software test lead And so forth The other certificate is for recent software engineering graduates or self-taught software engineers and is designated Certified Software Development Associate (CDSA). The CSDA also requires passing an exam, but does not require any professional experience. 2.University students who are taking (or reading) a BS or MS degree in software engineering, or practicing software engineers who want to update their knowledge. This book was originally written as a guide to help software engineers take and pass the IEEE CSDP exam.
